14 Second “	5 First “
2 U. S. Histories,	2 Book keeping,
5 Physiologies,	13 Complete Arithmetics.
6 Algebras,	12 Spelling books,

The new books which the board have introduced this year are Algebra, Geography and Book keeping.

There are no fifth readers on hand and no intermediate arithmetics, and there is a short supply of histories, book-keeping and third readers, for which an appropriation ought to be made.

The money which I have received for books sold to pupils this year, I have paid into the hands of Treasurer Wells and hold his receipts for the same.

S. N. WELCH,

Clerk of Board.

REPORT OF SCHOOLS.

CENTRE DIVISION.

1st. Term 8 weeks, Miss Lucy Shephard.

2nd. " " Miss Villa E. Hall.

3rd. " 10 weeks Miss Bertha Morrill.

All three of these teachers brought to their work a thorough preparation, and a conscientious desire to promote the best interest of the schools, and the result was three very successful terms.

At the close of Miss Morrill's term, the scholars held an exhibition which was largely attended and was very interesting.

W.

BURPEE DIV.

1st, Term 8 weeks, Miss Cordelia Withee, teacher.

2nd. " " " " " "

3rd. " 10 " Miss Lizzie Peaslee, "

This is one of the most pleasant schools in town to manage, both for teacher and committee.

The parents take a deep interest in the school, and the result is the scholars are obedient and manerly.

Both teachers were conscientious in the discharge of their duty, and the scholars made good progress.

W.

SOUTH DIV.

Rozina Ogilvie teacher for the year.

Miss Ogilvie is so well known in this town as a teacher, to require any comments from the committee.

Success has always been the result whenever she has taught, and the past year has been no exception to the rule.

We should have extended the last term two or three weeks longer, but the "Grip" attacking both scholars and teacher, we were reluctantly obliged to close it.

W.

POPLAR DIV.

1st. Term 8, weeks, Miss Dora Perkins, teacher.

2nd. “ “ “ “

3rd. “ 7 “ “ Grace Messer, “

Although the two first terms of this school was Miss Perkins' first experience in teaching, she brought to her work such aptitude that it made her school highly successful.

The first half of the 3rd. term bid fair to be successful, but some misunderstanding arising between teacher and parents, all but one scholar withdrew from school, and the committee thought best to close it at the end of the seventh week.

W.

OLD SOUTH DIV.

Miss Nellie L. Whittier, teacher.

Miss Whittier proved herself to be one of our best teachers.

She was a good disciplinarian, and had a happy faculty of imparting knowledge to others.

The people in the district preferred to have a long fall term, and dispense with the winter term; and consequently the fall term, was continued twelve weeks, and there was no winter term but such scholars as wished to do so, had the privilege of attending the winter term at the South.

W.

NORTH DIV.

The three terms of this school, the largest in town, under the efficient management of Miss Mary E. Bailey were highly successful.

Progress in all branches rapid and thorough.

All the classes in reading, especially, showed great improvement.

The success of the winter term was impaired by the sickness of many scholars. F.

MOUNTAIN DIV.

The second term of this school, taught by Miss Grace Messer was visited near its close.

About half of the scholars were absent; and the Register showed that they had been absent a great part of the two terms.

Those present at the close, had attended regularly, and made good improvement. F.

GORE DIV.

Miss Ida M. Hazen teacher.

This school when visited near the close of the second term appeared well.

The teacher, though inexperienced, was competent and faithful, and the scholars had been regular in attendance. F.

EATON DIV.

Miss Carrie H. Cooper, teacher.

That the first two terms of this school had been successful, was apparent when visited at the close of second term.

On account of sickness of teacher and scholars, the winter term closed earlier than was expected.

Therefore it was not visited.

The teacher reports a successful term. F.

ROLL OF PERFECT ATTENDANCE.

Including the names of all Pupils who have been present every half day of a term without being tardy.

—‡GENERAL REMARKS.‡—

In reviewing the past school year, the committee feel that they can congratulate the people of the town, on the success that has attended the efforts of the teachers in the various schools.

The only exception, was the winter term in the Poplar Div. and this was closed as soon as it became evident that the scholars were not reaping the full benefit of the money expended.

The teachers have brought to their work a thorough preparation, and a conceitious desire to leave an untarnished record behind.

The committee cannot reasonably expect Peafection in the teacher, any more than the public can reasonably expect perfection in the committee ; for there never was but one Perfect Man.

But we do believe that the efforts of both committee, and teachers, have been rewarded with a degree of success that is highly satisfactory.

The five per cent allowed the com. by law to be expended in repairs, has not been used for that purpose as with one or two exceptions, no repairs were needed.

But there will have to be some another year.

The house in the Burpee Div. needs some new doors, and there should be something done to improve the condition of the wood shed and water closets, connected with the house in the Mills Village, and perhaps some small repairs on some of the other houses.

While the people of Sutton have appropriated liberally for the support of schools ; and have, as was their duty ; kept a watchful eye on them, yet we cannot but feel as we look over the school registers ; that they, in common with the people of most other towns, are somewhat negligent in one important duty, and that is in showing their interest by frequent visits.

We can all look back to our school days and remember how it stimulated us in our studies, to know that our parents were liable to visit us at any time, and note our progress.

It is not enough that you pay liberally for the support of schools ; but there should be an abiding and continuous interest in their success ; and in no way can this interest be as plainly manifested, as in frequent visits.

It cheers, and encourages both teacher and scholars.

Very respectfully,

S. N. WELCH,	}	School
